	Application No.	Applicant(s)	
Notice of Allowability	10/788,631	KINNAN ET AL.	
	Examiner	Art Unit	
	William K Cheung	1713	
The MAILING DATE of this communication apper All claims being allowable, PROSECUTION ON THE MERITS IS herewith (or previously mailed), a Notice of Allowance (PTOL-85) NOTICE OF ALLOWABILITY IS NOT A GRANT OF PATENT RI of the Office or upon petition by the applicant. See 37 CFR 1.313	(OR REMAINS) CLOSED in or other appropriate commu GHTS. This application is s	this application. If not includentiation will be mailed in due	ed course. THIS
1. This communication is responsive to <u>IDS</u> .			
2. The allowed claim(s) is/are <u>1-30</u> .			
3. The drawings filed on are accepted by the Examiner	r.		
4.			
 Attachment(s) 1. ☑ Notice of References Cited (PTO-892) 2. ☐ Notice of Draftperson's Patent Drawing Review (PTO-948) 3. ☑ Information Disclosure Statements (PTO-1449 or PTO/SB/0: Paper No./Mail Date 0706, 0614 4. ☐ Examiner's Comment Regarding Requirement for Deposit of Biological Material 	6. ☐ Interview St Paper No./I 8), 7. ☐ Examiner's	Formal Patent Application (PTG ummary (PTO-413), Mail Date Amendment/Comment Statement of Reasons for Allo	,

DETAILED ACTION

Allowances

- 1. Claims 1-30 are allowed.
- 2. The following is an examiner's statement of reasons for allowance:

As of the date of this office action, the examiner has not located or identified any reference that can be used singularly or in combination with another reference including the closest prior art of Almquist et al. (US 6,284,849 B1) to render the present invention anticipated or obvious to one of ordinary skill in the art.

The closest prior art Almquist et al. disclose a method for transitioning between two different catalysts in an olefin polymerization process where the transition is performed between a chromium-based catalyst and a metallocene catalyst. However, Almquist et al. are silent on a method which involves introducing a second catalyst system to the polymerization reactor in the presence of at least a portion of the catalyst killer, wherein the at least a portion of the catalyst killer is an amount sufficient to activate the second catalyst system. Therefore, it would not be apparent to one of ordinary skill in art to use the method for transitioning between two different catalysts of Art Unit: 1713

Almquist et al. to obtain the invention of claims 1-30. The invention of claims 1-30 is allowed.

In light of the above discussion, it is evident as to why the present claims are patentable over the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, and to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to William K Cheung whose telephone number is (571) 272-1097. The examiner can normally be reached on Monday-Friday 9:00AM to 2:00PM; 4:00PM to 8:00PM.

Art Unit: 1713

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, David WU can be reached on (571) 272-1114. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
